

Climasphere Book

Group Members: _____

Learning Objective: To understand the process of how solar heat is moved around our planet by ocean currents and atmospheric winds from the tropics to the poles.

Concerns <i>Areas that need improvement</i>	Criteria <i>Standard for this assignment</i>	Advanced <i>Evidence of exceeding expectations</i>
	Content: how well did you explain the processes of heat/ solar energy moving around the planet? Did you incorporate at least 10 terms that we have been studying as part of this unit?	
	Organization: did you present it in a way that was easy to follow? Did it flow as if you were telling a story of the process?	
	Creativity: did you explain it in a fun, and imaginative way? Did you show (use images and diagrams) as well as tell (captions and paragraphs) in your explanations? Was it appealing and appropriate for your intended audience?	

Overall Grade: _____
